FIND YOUR IDEAL DESIGN

Creating a custom-crafted look for your home is as simple as 1, 2, 3.

1. Choose 3 – 6 colors, depending on the style of your home and trim areas; if you opt for 2 siding colors on your home, use the darker hue on the bottom
2. Consider 1 trim color and 1 accent color for features such as doors and shutters
3. Add texture and visual appeal with faux stone, brick, shakes or scallops

CLAPBOARD SIDING

Designed with a straight, flat face and a beveled edge, Clapboard recreates the appearance of hand-installed wood plank siding.

INSULATED SIDING

This high-performance siding system combines a heavy-duty vinyl panel with contoured insulation to protect your home from energy loss and noise infiltration.

TRADITIONAL SHAKE

The generous 7" exposure, deep woodgrain texture and authentic hand-cut appearance convey the ideal touch of coastal charm.

DUTCH LAP SIDING

A longtime favorite, Dutch Lap siding is distinctive for its coved face and deep, bold shadow lines.

SOLID AND VENTED SOFFIT

A quality soffit system creates a crisp, clean appearance for the hard-to-reach areas of your home, while providing a low-maintenance finish that's built to last.

- Solid soffit also installs beautifully as vertical siding to enhance gables and other areas.
- Vented soffit promotes essential air circulation for the eaves and rafters to help remove moisture from the roof structure.

SCALLOP

Uniform and pristine, our 6-1/4" scallop panel touts the roughsawn texture and artistic detail of cedar half-rounds.

BEADED SIDING

The masterfully sculpted beaded ridge and ample shadow lines of this 6-1/2" profile impart historical appeal.

CAPE COD SHINGLE

The clean-line design and woodgrain texture of this 5" double-course profile calls to mind the casual ambiance of seaside homes.

BOARD & BATTEN SIDING

Featuring a 7" exposure with a 5-1/2" board and 1-1/2" batten strip, Board & Batten vertical siding works well as a whole-house exterior or as an accent siding.
